## Introduction of University

National Taipei University of Nursing and Health Sciences (NTUNHS) is located on 365, Ming Te Road, Peitou District, Taipei, Taiwan. Founded in 1954, NTUNHS was first known as “Taiwan Provincial Junior College of Nursing.” In August 1994, it was upgraded as fully-fledged college and became the first independent nursing college in Taiwan. Upon the demand for nursing taskforce, NTUNHS has pioneered the nursing and healthcare education in Taiwan. As of the 2009 academic year, NTUNHS has a total of three schools, five departments and twelve graduate institutes, which offer 5 undergraduate programs, 13 master programs and 1 doctoral program. In July 2010 NTCN was renamed to National Taipei University of Nursing and Health Sciences (NTUNHS).

The Department of Health Care Management, established in 1994 aims to promote practice and research in the field of health care management, and to provide students with training pertaining to the management of health care and health enterprise. Starting from 1999, the MSc. program majoring in health care management was launched in this department, and a 4-year undergraduate program was initialized in 2008. Students who graduate from this department are expected to serve as middle-level health care administrators.

The College of Nursing is one of the biggest as well as most sophisticated college in NTUNHS. By having educated countless nursing specialists, the College of Nursing have accumulated abundant teaching experiences and distinguished research accomplishment. Equipped with high-tech medical care instruments, well-trained faculty members combine theory and practicum in order to apply what we have learned in a specific case. The aim of the College of Nursing is to mold students into professionals who possess the following characteristics: learning by doing; disseminating knowledge in specialty areas; integrating their wisdom, minds and services together; and applying both science and liberal arts into their life and daily practice.

## College of Nursing

The College of Nursing is comprised of one faculty and four graduate institutes, including the School of Nursing (Bachelor's, Master's and PhD), the nation's only Graduate Institute of Nurse-Midwifery (Master's), the Graduate Institute of Integration of Traditional Chinese Medicine with Western Nursing (Master's), and the Graduate Institute of Health Allied Education. With over 50 members of the faculty holding PhD level nursing certification, our school is the only domestic university offering both academic and vocational nursing training programs, and stands above others as the leading example in the field of professional nursing.

### **School of Nursing**

The School of Nursing places “humanity” as its core philosophy of nursing care. To accommodate health care demands at every stages of the life cycle, we strive to develop novel nursing technologies and modes of nursing care applications. To cultivate competent nursing care personnel and advanced care professionals, we integrated the following core values into our academic teachings: compassion, basic biomedicine, clinical nursing skills, communication, cooperation, critical thinking, diligence, ethical and moral professionalism.

### **Graduate Institute of Nurse-Midwifery**

Our institute is the only domestic organization offering professional mid-wife training. We emphasize family-centric level of woman's basic medical care; with the goal of fulfilling the unique functions of midwives in mind, we set out to provide care for low-risk pregnant women, medical counseling, co-operative management and referrals for healthy women and high-risk pregnant women. In compliance with the Midwifery Act, we develop cooperative mechanisms with practicing gynecologists to provide the best care services. In the future, we plan to shape our institute into a midwifery education and service center that is on par with international standards, offering professional courses and practical clinical trainings for perspective students. We hope to cultivate our graduates into fully-fledged midwifery personnel that excel in both practical and academic fields.

### **Graduate Institute of Integration of Traditional Chinese Medicine with Western Nursing**

Our institute specializes in empirical nursing care research, and we hope to become the pioneer in combining Traditional Chinese Medicine/complementary therapies with the field of nursing care. In addition, we are actively building the “Center of the Integration of Traditional Chinese Medicine with Western Nursing Evidence-Based Nursing Studies”, which is our nation's first evidence-based research institute with the goal of combining strategies in complementary therapies and nursing care trainings.

### **Graduate Institute of Health Allied Education**

Our institute was established to provide courses in strengthening the theoretical and practical capabilities of medical personnel in academic course design, with additional trainings on teaching material design, technology applications and developing teaching strategies. Our research mainly focuses on the development of our nation's knowledge on medical related academic teachings and trainings.

# College of Healthcare Administration and Management

The College of Healthcare Administration and Management is comprised of four sections: the College of Health Industry Management, the College of Information Management, the Graduate Institute of Tourism and Health Science, and the Graduate Institute of Long-term care. Our faculty primarily focuses on bridging health care and management, two seemingly unrelated professions, into one coherent field of study that reflects the health care core value of our school. The main educational goals of our college is to bring about modernized health care management with strong information technology and management knowledge as backgrounds, and to adapt proficiently to satisfy demands from the enterprise sectors and the society.

## College of Health Industry Management

The goal of our college is to train professional management personnel with proficiency in management of health care and health enterprise. We provide students with opportunities to pursue trainings in multiple disciplines and career management. Our curriculum includes courses on general health industry management, as well as collaborating with health care industries and organizations to provide five types of career programs for our students. To provide our faculty members and students with excellent teaching, research and service environment, we have established facilities such as the Center for Health Informatics, Center for Statistical Software, Center for Health Environment, Center for Health Database and Center for Research Consultation.

## College of Information Management

The goal of our college is to train information technology and management personnel that can integrate theory with practice, and can cater to today's market demands and future developing trends. Our intention is to drive the progression of information technology application in the fields of business, enterprise and medicine; we hope to cultivate personnel that can manage theories and skills from medical, information and management related fields, identify and resolve problems and questions, and ultimately implement information technology to achieve the philosophy of healthcare management.

## Graduate Institute of Tourism and Health Science

Our goal is to train professional personnel specialized in tourism and health care. The design of our curriculum emphasizes integration of professional knowledge and skills on fields such as sightseeing tourism, recreation and leisure, health sciences and environment ecology. The objectives of our institute can be summarized as *I.C.R.T*: **Independent Thinking** – students are trained to think independently, logical criticism and expression proficiency; **Crisis Management** – students are trained to deal with tourism related health issues; **Research ability** – improve the academic research skills; **Tourism Health** – students are trained with professional management of tourism health.

## Graduate Institute of Long-term care

Our goal is to train students to become practical long-term care personnel when they graduate, be it practical care workers, management personnel, policy makers or executors, or academic professionals in related fields. Our objective is to provide our students with the following capabilities:

- (I) Provide professional services, research or education on long-term care.
- (II) Implement long-term care case and organizational management and inspection.
- (III) Planning and promoting long-term care related legislatures and systems.

## College of Human Development and Health

The College of Human Development and Health is comprised of the Department of Infant and Childcare, Department of Exercise and Health Science, Department of Speech and Hearing Disorders and Sciences, and the Institute of Life and Death Education and Counseling. Our objective is the development of multi-disciplinary teaching and research of the different stages of human life cycle, emphasizing human health development at different stages in life. We plan to implement cross-field integration of colleges, departments and expertise in multiple disciplines, construct electronic learning environment, and increase our student's awareness of life and holistic education on societal compassion. We encourage innovative teaching strategies and research, and strive to bridge together vocational trainings with academic theories.

### **Department of Infant and Childcare**

Our goal is to train childcare and education professional personnel that can integrate theory with practice, possess logical thinking, and are compassionate, innovative and reflective to meet the childcare demands of our family, society and nation, increase the professional quality of domestic child care. We provide courses and curriculum, grouped into five different fields, based on our faculty member's specialty: child health, education, early treatment, welfare and administration. These courses will help students develop rational thinking, enabling them to understand, evaluate, apply and reflect upon issues related to childcare, as well as active involvement in industry research and development.

### **Exercise and Health Science of NTUNHS**

The Department of Exercise and Health Science is the only faculty that specifically offers exercise and health related courses in all of the professional medical universities in Taiwan. Our goal is to train professional personnel that are proficient with knowledge of exercise science and health care philosophy, and will go on to implement an exercise and health related safety system for athletes and the general public.

### **Department of Speech and Hearing Disorders and Sciences**

The founding principles of our institute are:

1. Cultivate and train speech therapists and audiologists that are proficient in both research and clinical applications, provide therapeutic services to the speech and hearing impaired populations, and are able to conduct research work.
2. Training of research professionals in the fields of speech and hearing related sciences.

### **Institute of Life and Death Education and Counseling**

The educational objectives of our institute are:

1. Educate and train research personnel in the application of life and death education and grief counseling.
2. Development of four major research fields: Life education, Death education, Grief Counseling and Medical Counseling, and Suicide Prevention Theory.
3. Offer in-service trainings and counseling services to workers in the fields of life and death education and grief counseling.
4. Offer services on promotion of life and death issues to the general public.
5. Elevate the domestic awareness of life & death education and grief counseling to international standards.

## II . Qualification

Eligibility for application is limited to students,

- [undergraduate] who have a high-school degree or an equivalent degree from foreign high schools accredited by the Ministry of Education, R.O.C. (Taiwan).
- [master] who have an undergraduate degree or an equivalent degree from foreign universities accredited by the Ministry of Education, R.O.C. (Taiwan).
- [PhD] who have a master degree or an equivalent degree from foreign universities accredited by the Ministry of Education, R.O.C. (Taiwan)
- who do not have the oversea Chinese status and do not hold a Republic of China passport for at least the past eight years,
- who have the evidence of Chinese proficiency that is equivalent to the TOCFL (Test of Chinese as a Foreign Language) Level 3 or higher. The applicants who are recommended by the R.O.C. (Taiwan) Embassy/ Representative Offices or Taiwan Technical Mission would receive a preferential consideration and may be waived from the formal Chinese test, if they have been examined to have Chinese proficiency by the R.O.C.(Taiwan) Embassy or Representative Offices.

※A Tip for TOCFL Test:

*All applicants who have not received a high school certificate from an educational institution in Taiwan or a Chinese speaking institution are required to submit official TOCFL scores in order to be considered for admission. The test is administered by the Steering Committee for the Test of Proficiency-Huayu (SC-TOP). Information regarding the TOCFL is available at.*  
[http://www.sc-top.org.tw/english/eng\\_index.php](http://www.sc-top.org.tw/english/eng_index.php)

## Program Duration

The duration for this undergraduate's program is limited to 4 years. International students shall successfully pass all courses within four years and receive the Bachelor of Science degree conferred by the National Taipei University of Nursing and Health Sciences in accordance with the laws of the R.O.C. Ministry of Education. If a student fails to finish the requirements for the bachelor's degree within the stipulated time period, the scholarship shall not be extended. Those who have completed all the required courses may continue to apply for the international graduate program in related fields.

## III . Admission

1. The following items must be submitted with the application when applying to the National Taipei University of Nursing and Health Sciences.

➤ Application form

- **One photocopy of diploma** of the highest degree attained (with official translation to Chinese or English if in other languages) **and official transcript** of the degree program in English. The diploma shall be subject to validation by the R.O.C. (Taiwan) Embassy or Representative Offices in accordance with requirements of the R.O.C. Ministry of Education. (\*For non-scholarship applicants, photocopy of diploma and official transcript can be sent to NTUNHS directly by the original high school.)
- Certificate of health status within 3 months (*please refer to NTUNHS medical report*), **which must include test for HIV** as required by the Department of Health, Executive Yuan, R.O.C.
- Financial Statement (for non-scholarship applicant only)  
*Financial statement must state that you have financial support for a minimum of one year of the program you apply for. Yearly totals must meet or exceed the minimum estimated annual expenses shown below. Please keep in mind that the estimates for living expenses are approximations and that, depending on your lifestyle, these cost may be higher. Transportation to and from Taiwan is not included in these estimates.*

Estimated Annual Expenses \$(Us dollars)

<i>Breakdown of Costs</i>	<i>Annual</i>
Tuition and fees	\$3362
Room and Board	\$1453
Book and Supplies	\$606
Living Expenses	\$2547
Health Insurance	\$219
Total	\$8187

- One letter of recommendation in English
- One curriculum vitae
- One statement of purpose / study plan in English  
 A 500-1000 word statement concerning your past work, preparation for the intended field of study, relevant background and interests, academic plans, and career objectives is required. It should be used to describe your reasons for applying to NTUNHS or the program. This statement may assist the admissions committee in evaluating your aptitude and motivation for undergraduate study.
- Evidence of English proficiency—all applicants must have the evidence of English proficiency that is equivalent to the TOEFL computer-based test score of 173 (or paper-and-pencil test score of 500) or higher. The TaiwanICDF scholarship applicants, those who are recommended by the R.O.C. (Taiwan) Embassy/ Representative Offices or Taiwan Technical Mission, would receive a preferential consideration and may be waived from the formal English test, if they have been examined to have English proficiency by the R.O.C. (Taiwan) Embassy or Representative Office.
- Other supporting documents such as publications, awards, or academic hours. ( optional )

2. (i) For the TaiwanICDF scholarship applicants: Application forms and relevant materials must be submitted to National Taipei University of Nursing and Health Sciences through the R.O.C. (Taiwan) Embassy/ Representative Offices or Taiwan Technical Mission before April 30<sup>th</sup>.

(ii) For the SPOT scholarship applicants : Application forms and relevant materials must be submitted to the R.O.C. (Taiwan) Embassy or Representative Office in your country, as well as National Taipei University of Nursing and Health Sciences, to the following address before March 31<sup>st</sup>.

Office of International Academic Exchange Program  
National Taipei University of Nursing and Health Sciences  
No.365, Ming-Te Road, Peitou District 112, Taipei City, Taiwan (R.O.C.)  
Tel: 886-2-28227101 ext. 2731 Fax: 886-2-28206729  
E-mail: shuen@ntunhs.edu.tw

(iii) For non-scholarship applicants: Application forms and relevant materials must be submitted to the office of International Academic Exchange, National Taipei University of Nursing and Health Sciences, the above address, before April 30<sup>th</sup>.

3. No application with missing articles or incomplete forms will be accepted by the National Taipei University of Nursing and Health Sciences. No late submission or any make-up practice will be accepted.

### **Notification of Admission and Registration**

1. As soon as we receive your application materials, we will inform you via e-mail with your application status.
2. After being reviewed and approved by the International Health and Nursing Administration Program, applications will be submitted to the Committee of International Student Admission at the National Taipei University of Nursing and Health Sciences for final approval.
3. After being notified of admission, students must complete registration procedures within the specified time. Late registration will not be accepted.
4. If any information provided by the student was found falsified, student shall be denied of admission.
5. Students must provide original diploma at registration and official English translation is required if the original document is in other languages.

### **Notices**

1. Undergraduate Health and Nursing Administration Program students must complete a minimum 72 professional compulsory credits, 30 general education program credits, and 26 elective credits.
2. Waiving of the required courses may be granted upon the review and the approval of the Education Committee of the International Health and Nursing Administration Program

if the student had successfully completed the same course in recent five years. Waiving of the required courses may be approved by the Education Committee if the program instructor acknowledges that the working experience of the student is related to the content of the courses.

## IV. Application Period

Application Period: January 1<sup>st</sup>~April 30<sup>th</sup>

## International Health and Administration Undergraduate Program

### I. Introduction of Program

The program is provided by the Department of Health Care Management at NTUNHS, aiming to provide comprehensive training courses concerning managerial professional development for licensed registered nurses who seek advanced knowledge on health and nursing administration. This program also set its focus on broadening students' horizons of medical knowledge and skill of hospital management, and on cultivating students' research capacity and leadership in health care and nursing program.

With qualified health and nursing administration specialists, we have accumulated abundant teaching experience and distinguished research accomplishment which can fulfill your every need of being a health and nursing administrative professional. The students will obtain the "Bachelor of Science (BS)" degree from the Department of Health Care Management after the four-year program (including a non-hands-on hospital practicum) is successfully completed.

### Course Module

➤ Total Credits (128): minimum 75 professional compulsory credits, 30 general education program credits, and 23 elective credits.

➤ Compulsory Core Courses:

	1st year	2nd year	3rd year	4th year
General education curriculum (30credits / 40 hour)	Chinese 1 & 2 (6/8), (6/8)	Chinese 3 & 4 (6/8), (6/8)		
	Physical Education I & II (1/2), (1/2)	English for Healthcare and Nursing I (2/2)		
	Computer Literacy and Applications of Computer Networks (2/2)			
Courses required for specialty (75 credits / 84 hour):	Chemistry (2/2)	Microbiology and Immunology (3/3)	Business and management psychology (2/2)	Health economics (2/2)
	Chemistry Experiment (1/2)	Microbiology and Immunology Experimental (1/2)	Introduction health care delivery systems(2/2)	Teaching Principles (2/2)
	Human Anatomy (2/2)	Pharmacology (2/2)	Introduction to medicine I & II(3/3),(3/3)	Physical examination(3/3)
	Laboratory of Human Anatomy(1/2)	Nutrition & Nutrition Experiment (2/2)	Medical-surgical nursing I&II (3/3), (3/3)	Practicum of health care management (4/8)
Professional foundation course	Physiology (2/2)	Pathology(2/2)	Accounting (3/3)	Healthcare Quality Management (2/2)
	Biochemistry (2/2)	Calculus (3/3)	Epidemiology (2/2)	Healthcare of Financial Management (2/2)
	Biochemistry Experiment (1/2)	Basic Nursing (3/3)	Biostatistics (3/3)	Healthcare Human Resource Management(2/2)
Professional core courses		Experiential learning in hospitals (1/2)	Elements of public health(2/2)	Healthcare Informatics Management (2/2)
			Experiential learning in health care organizations (1/2)	Healthcare Marketing Management(2/2)
			Introduction to research method (3/3)	<b>(Choosing 4 credits among 10 credits)</b>

- **Optional Courses (23 credits / 23 hour) :**  
Management Science, Physiology Laboratory, Pathology Experiment, Experimental of Pharmacology, Economy and life, English for Healthcare and Nursing II, Modern and Contemporary Art, Philosophy and Human Life, Organizational Behavior, Operation management in Healthcare Organization, Innovation management in Healthcare Organization, Operations Research, Hospital Management Practice, Cost Management in Healthcare Organization, Performance Management in Healthcare Organization, Health Information and Medical Record Management, Biotechnology and health, Statistical Software, Health Insurance, Aerobic dance, Yoga, Muscle Sculpting, Badminton, Tennis, Table Tennis, Swimming, Introduction to Health Tourism, and Introduction to Tourism Industry.

## II . Qualification

Eligibility for application is limited to students,

- who have a high-school degree in nursing or an equivalent degree from foreign high schools accredited by the Ministry of Education, R.O.C. (Taiwan).
- who do not have the oversea Chinese status and do not hold a Republic of China passport for at least the past eight years,
- who have the evidence of English proficiency that is equivalent to the TOEFL computer-based test score of 173 (or paper-and-pencil test score of 500) or higher. The applicants who are recommended by the R.O.C. (Taiwan) Embassy/ Representative Offices or Taiwan Technical Mission would receive a preferential consideration and may be waived from the formal English test, if they have been examined to have English proficiency by the R.O.C.(Taiwan) Embassy or Representative Offices.

※A Tip for TOEFL Test:

*All applicants who have not received a high school certificate from an educational institution in the United States or from one of the exempt countries (Canada, the U.K., the Republic of Ireland, New Zealand, or Australia) are required to submit official IELTS or TOEFL scores in order to be considered for admission . The test is administered by Educational Testing Service. Information regarding the TOEFL is available at [www.toefl.org](http://www.toefl.org).*

## Program Duration

The duration for this undergraduate's program is limited to 4 years. International students shall successfully pass all courses within four years and receive the Bachelor of Science degree conferred by the National Taipei University of Nursing and Health Sciences in accordance with the laws of the R.O.C. Ministry of Education. If a student fails to finish the requirements for the bachelor's degree within the stipulated time period, the scholarship shall not be extended. Those who have completed all the required courses may continue to apply for the international graduate program in related fields.

### III. Admission

4. The following items must be submitted with the application when applying to the National Taipei University of Nursing and Health Sciences.

- Application form
- **One photocopy of diploma** of the highest degree attained (with official translation to Chinese or English if in other languages) **and official transcript** of the degree program in English. The diploma shall be subject to validation by the R.O.C. (Taiwan) Embassy or Representative Offices in accordance with requirements of the R.O.C. Ministry of Education. (\*For non-scholarship applicants, photocopy of diploma and official transcript can be sent to NTUNHS directly by the original high school.)
- Certificate of health status within 3 months (*please refer to NTUNHS medical report*), **which must include test for HIV** as required by the Department of Health, Executive Yuan, R.O.C.
- Financial Statement (for non-scholarship applicant only)  
*Financial statement must state that you have financial support for a minimum of one year of the program you apply for. Yearly totals must meet or exceed the minimum estimated annual expenses shown below. ## **International Nursing Master of Science Program**

### **I. Introduction of Program**

The program is provided by the college of nursing, which is the biggest as well as most sophisticated department in NTUNHS. By having educated countless nursing specialists, we have accumulated abundant teaching experience and distinguished research accomplishment which can fulfill your every need of being a nursing professional.

The program aims to provide a path towards professional development for licensed registered nurses by concentrating on broadening students' horizons of knowledge of international health and human illnesses as well as cultivating research capacity and leadership in nursing care. The students will earn the "Master of science (major in nursing)" degree from the Graduate Institute of College of Nursing after the two-year scholarship program is successfully completed.

## Courses

- Total Credits(30): minimum 24 credits plus 6 thesis credits
- Required core courses:

Course Title	Credits
Research Methodology	3
Nursing Theory	2
Advanced & Applied Biostatistics	3
Health Assessment for Advanced Practice Nursing	3
Transcultural Nursing I	3
Transcultural Nursing II	3
Transcultural Nursing Field Experience	3
Master Thesis/ Research Project	6

- Elective courses:

Course Title	Credits
Elective Courses	3
Independent Study	1

## II. Qualification

Eligibility for application is limited to students,

- who do not have the oversea Chinese status and do not hold a Republic of China passport for at least the past eight years.
- who have a bachelor's degree or associate's degree in fields related to nursing at national or registered private universities and independent colleges, or foreign universities and colleges approved by the R.O.C. Ministry of Education.
- who have the evidence of English proficiency that is equivalent to the TOEFL computer-based test score of 173 (or paper-and-pencil test score of 500) or higher. The TaiwanICDF scholarship applicants, those who are recommended by the R.O.C. (Taiwan) Embassy/ Representative Office or Taiwan Technical Mission, would receive a preferential consideration and may be waived from the formal English test, if they have been examined to have English proficiency by the R.O.C. (Taiwan) Embassy or Representative Office.

※A Tip for TOEFL Test:

*All applicants who have not received a bachelor's degree (or higher) from an educational institution in the United States or from one of the exempt countries (Canada, the U.K., the Republic of Ireland, New Zealand, or Australia) are required to submit official IELTS or TOEFL scores in order to be considered for admission . The test is administered by Educational Testing Service. Information regarding the TOEFL is available at [www.toefl.org](http://www.toefl.org).*

## Program Duration

The duration for this master's program is limited to **two years**. International students shall successfully pass all courses and complete a master thesis within two years and receive the Master of Science degree conferred by the National Taipei University of Nursing and Health Sciences in accordance with the laws of the R.O.C. Ministry of Education. If a student fails to finish the requirements for the master's degree within the stipulated time period, the scholarship shall not be extended. Those who have completed all the required courses may continue to complete the thesis with other funding sources upon the approval of one's national government, the R.O.C. Ministry of Foreign Affairs, and the scholarship sponsor institutions.

### III. Admission

1. The following items must be submitted with the application when applying to the National Taipei University of Nursing and Health Sciences.
  - Application form
  - **One photocopy of diploma** of the highest degree attained (with official translation to Chinese or English if in other languages). The diploma shall be subject to validation by the R.O.C. (Taiwan) Embassy or Representative Office in accordance with requirements of the R.O.C. Ministry of Education.
  - **Official transcript** of the degree program in Chinese or English. The transcript shall be subject to validation by the R.O.C. (Taiwan) Embassy or Representative Office in accordance with requirements of the R.O.C. Ministry of Education. (\*For non-scholarship applicants, photocopy of diploma and official transcript can be sent to NTUNHS directly by the original high school.)
  - Certificate of health status within 3 months (*please refer to NTUNHS medical report*), **which must include test for HIV** as required by the Department of Health, Executive Yuan, R.O.C.
  - Financial Statement (for non-scholarship applicant only)  
*Financial statement must state that you have financial support for a minimum of one year of the program you apply for. Yearly totals must meet or exceed the minimum estimated annual expenses shown below. Please keep in mind that the estimates for living expenses are approximations and that, depending on your lifestyle, these cost may be higher. Transportation to and from Taiwan is not included in these estimates.*  
Estimated Annual Expenses \$(Us dollars)

<i>Breakdown of Costs</i>	<i>Annual</i>
Tuition and fees	\$3362
Room and Board	\$1453
Book and Supplies	\$606
Living Expenses	\$2547
Health Insurance	\$219
Total	\$8187

- One letter of recommendation in English
- One statement of purpose / study plan in English

A 500-1000 word statement concerning your past work, preparation for the intended field of study, relevant background and interests, academic plans, and career objectives is required. It should be used to describe your reasons for applying to NTUNHS Nursing M.S. program. This statement may assist the admissions committee in evaluating your aptitude and motivation for graduate study.

- Evidence of English proficiency—all applicants must have English proficiency equivalent to TOEFL computer-based test score of 173 (or paper-and-pencil test score of 500) or higher. The TaiwanICDF scholarship applicants, those who are recommended by the R.O.C. (Taiwan) Embassy/ Representative Office or Taiwan Technical Mission, would receive a preferential consideration and may be waived from the formal English test, if they have been examined to have English proficiency by the R.O.C. (Taiwan) Embassy.
  - Other supporting documents such as publications, awards, academic honors or curriculum vitae. (optional )
2. (i) For the TaiwanICDF scholarship applicants: Application forms and relevant materials must be submitted to National Taipei University of Nursing and Health Sciences through the R.O.C. (Taiwan) Embassy/ Representative Office or Taiwan Technical Mission in your country before April 30<sup>th</sup>.
- (ii) For the SPOT scholarship applicants : Application forms and relevant materials must be submitted to the R.O.C. (Taiwan) Embassy or Representative Office in your country, as well as National Taipei University of Nursing and Health Sciences, to the following address before March 31<sup>st</sup>.

Office of International Nursing Program  
College of Nursing  
National Taipei University of Nursing and Health Sciences  
No.365, Ming-Te Road, Peitou District 112, Taipei City, Taiwan (R.O.C.)  
Tel: +886-2-28227101 ext. 3306 or 2731 Fax: +886-2-28206729  
E-mail: yiukang@ntunhs.edu.tw

- (iii) For non-scholarship applicants: Application forms and relevant materials must be submitted to the Office of International Nursing Program, National Taipei University of Nursing and Health Sciences, the above address, before April 30th.
3. No application with missing articles or incomplete forms will be accepted by the National Taipei University of Nursing and Health Sciences. No late submission or any make-up practice will be accepted.

## Notification of Admission and Registration

1. As soon as we receive your application materials, we will inform you via e-mail with your application status.
2. After being reviewed and approved by the International Nursing Program, applications will be submitted to the Committee of International Student Admission at the National Taipei University of Nursing and Health Sciences for final approval.
3. After being notified of admission, students must complete registration procedures within the specified time. Late registration will not be accepted.
4. If any information provided by the student was found falsified, student shall be denied of admission.
5. Students must provide original diploma and transcript at registration and official English translation is required if the original document is in other languages.

## Notices

1. International Nursing Program students must complete a minimum of 24 credits in courses and 6 credits either in a master thesis or a project.
2. International Nursing Program students must take 26 compulsory credits (including Research Methodology, Nursing Theory, Advanced & Applied Biostatistics, Health Assessment for Advanced Practice Nursing, Transcultural Nursing I, Transcultural Nursing II, Transcultural Nursing Field Experience, Master Thesis/ Research Project) and 4 credits of elective courses.
3. Waiving of the required courses may be granted upon the review and the approval of the Education Committee of the International Nursing Program if the student had successfully completed the same course in recent five years. Waiving of the required courses may be approved by the Education Committee if the program instructor acknowledges that the working experience of the student is related to the content of the courses.

## IV. Application Period

Application Period: January 1<sup>st</sup> ~April 30<sup>th</sup>

*Thank for your interest in our program.*

*We are looking forward to receiving your application!*

# Scholarships

## I. Taiwan ICDF Scholarship:

The Taiwan ICDF scholarship, including airfare (A Round trip ticket), housing, tuition, credit fees, insurance, book costs and a monthly allowance, will be provided to each student. The scholarship is itemized as follows:

- Airfare—the ICDF shall provide one economy class ticket of the most direct flights **to and from** Taiwan.
- Housing—the scholarship shall cover the rents of the undergraduate students' /graduate students' dormitory at National Taipei University of Nursing and Health Sciences.
- Tuition fees—the scholarship shall cover registration and tuition fees at National Taipei University of Nursing and Health Sciences.
- Credit fees—the scholarship shall cover the fees for the credits required for obtaining the B.S. degree/M.S. degree at National Taipei University of Nursing and Health Sciences.
- Insurance—in addition to the mandatory insurance, students shall be insured for accidental and medical coverage while they are in Taiwan. The insurance fees will be paid by the scholarship.
- Book costs—assigned textbooks shall be provided upon the approval of the Department of Health Care Management/ Graduate Institute of Nursing.
- Allowance—
  - (i) for Undergraduate Students - each scholarship program undergraduate student shall receive NT\$12,000 per month (NT\$144,000 per annum) as allowance for food and miscellaneous living expenses. The sum will be deposited monthly into students' local bank account.
  - (ii) for Master Students – each scholarship program graduate student shall receive NT\$15,000 per month (NT\$180,000 per annum) as allowance for food and miscellaneous living expenses. The sum will be deposited monthly into students' local bank account.

## II. SPOT Scholarship:

The Taiwan Scholarship Program was established jointly by three government agencies of the Republic of China (Taiwan) --- the Ministry of Education (MOE), the Ministry of Foreign Affairs (MOFA) and the National Science Council of the Executive Yuan (NSC) --- to encourage outstanding international students to undertake degree programs in Taiwan. While providing study opportunities for a wide range of disciplines, at Taiwan's universities and colleges, this program also aims to:

1. Promote knowledge, understanding and friendship between people in Taiwan and in countries around the world.
2. Provide opportunities to increase academic and educational links with international institutions of higher learning.

3. Develop outstanding professionals and experts to meet the needs of the global society.

There are three government agencies that fund this program, each with a different focus in terms of recipients' nationalities and study programs

• **MOFA Scholarship:**

Recipients from countries that have diplomatic relations with the R.O.C. (Taiwan) or countries specified as being diplomatically favorable by MOFA.

Undergraduate and/or postgraduate degree programs: Embassies of the R.O.C. can also award a pre-degree Mandarin Language Enrichment Program (LEP) scholarship to recipients to improve their language abilities.

• **MOE Scholarship:**

Recipients from countries other than those specified in the MOFA Scholarship. Undergraduate and/or postgraduate programs: R.O.C.'s overseas offices can also designate a pre-degree Mandarin Language Enrichment Program (LEP) to recipients to improve their language abilities.

• **NSC Scholarship:**

Recipients from countries other than those specified in the MOFA Scholarship. Postgraduate programs only.

### **Amount of Scholarships**

The amount of each scholarship varies in accordance with the funding government agency's policy:

1. **MOFA Scholarship:** One economy-class, direct-route roundtrip international airfare ticket, plus a monthly stipend of NT\$30,000 (approximately US\$930).
2. **MOE Scholarship:** A monthly stipend of NT\$25,000 (approximately US\$775) for undergraduate or LEP study, and NT\$30,000 for a postgraduate degree program.
3. **NSC Scholarship:** A monthly stipend of NT\$30, 000.

To know more, please visit the Ministry of Education:

<http://english.moe.gov.tw/mp.asp?mp=1>

From February 1<sup>st</sup> till end of March every year, applicants can apply at the nearest Taiwan Embassy or Representative Office in his/her home country.

For more information about scholarships, please visit:

# APPLICATION FOR ADMISSION

Only one application can be submitted; multiple applicants will not be processed

## GRADE POINT AVERAGE 平均積點分

※Please enter your grade point average (GPA) information. Please figure your average by using either the A-F system or the numerical system (0-100, 0-20 scale, etc.) To compute the GPA on the A-F system, take the total number of credit hours of As and multiply by 4; the number of credit hours of Bs by 3; Cs by 2; Ds by 1; Fs by 0. Add these results to get the total number of Grade points. Now add all of the credit hours of As, Bs, Cs, Ds and Fs. Divide the total number of Grade points by the total number of credit hours. If your school uses a system of plus or minus Grades and assigns a value to the plus or minus Grades, for example A=4, B+=3.33, then you should use that system in computing the GPA. Courses Graded on the Pass/No Pass, or S/U scale should not be figured into the GPA.

請輸入你的平均積點分(GPA)。請依照 A-F 等級或數字(0-100, 0-20 等)計算你的平均。用 A-F 等級計算你的平均積點分，拿到所有學分是 A 則乘 4，拿到 B 乘 3；C 乘 2，D 乘 1；F 乘 0。將結果相加得到總分。將所有學分相加。將成績總分除以學分。如果你的學校使用加號或減號，例如 A=4, B+=3.33，你在計算 GPA 時應該使用進去。那些課程只分通過或當掉，或者 S/U 等級不應該被換算成 GPA。

A-F GPA (Overall high school): \_\_\_\_\_  
\*.\*

A-F GPA (Overall undergraduate, if applicable): \_\_\_\_\_  
\*.\*

Numerical GPA (Overall high school): \_\_\_\_\_  
(e.g., 1-5, 1-10, 1-20, 1-100)

Numerical GPA (Overall undergraduate if applicable): \_\_\_\_\_

Book and Supplies 書籍	\$606
Living Expenses 生活雜支	\$2909
Health Insurance 健康保險	\$219
Total 總計	\$7323

## **STATEMENT OF UNDERSTANDING 重要聲明**

---

I certify that the information on this application is complete and accurate. I understand the following:

我保證完全並正確地了解申請的資訊。我理解下列陳述:

1. that this form is only for applicants who do not have overseas Taiwanese status and do not hold a Republic of China passport, except for applicants who hold Hong Kong or Macau citizen status. Foreign applicant who held R.O.C. citizenship within the past eight years is not eligible for application. The provision specified in the preceding paragraph “eight years” is from the loss of R.O.C. nationality to the first term beginning on the calendar of NTUNHS.

本申請表僅限於未具中華民國身分且無中華民國護照之申請者，持有香港或澳門公民身分者不在此限制內。凡過去八年持有中華民國公民身分之外籍申請者不具申請資格。上述年限係指從喪失中華民國國籍至國立臺北護理健康大學開學第一學期開始計算。

2. that misrepresentation of application information is sufficient grounds for denial of admission and for cancellation of admission or registration;

不實的申請資訊是可導致入學許可和入學或登記取消。

3. that submission of fraudulent credentials may also be a criminal offense in Taiwan;

遞交不實的證明文件可能會觸犯中華民國法律。

4. that due to a perceived increase in forged transcripts the admissions office will write to the schools of selected students and verify their credentials;

為避免成績單偽造，本校招生辦公室將會寫信給申請人原學校來確認該生身分文件。

5. that if a student's transcripts are forgeries, the NTUNHS will drop the student from The Graduate/ Undergraduate School and may refer the matter to law enforcement authorities for prosecution;

若學生的成績單是偽造的，本校將會把該生從大學或研究所除名，並且訴諸法律。

6. that official notification of admission or rejection is sent only by Office of International Program;

正式入學或拒絕通知統一由本校國際學術交流組寄送。

7. that foreign students who have already completed in Taiwan the applied degree program or have been expelled from university are not eligible to re-apply for admission. Breaking this rule would result in immediate cancellation of the applicant's admission or the deprivation of the applicant's recognized status as NTUNHS registered students.

已在臺灣完成學業或被開除之外籍生無法再入學，若違反規定將會直接取消申請人的入學許可或剝奪該申請者在國立臺北護理健康大學學生身分。
